WORKFORCE.

CONNECT YOUR PHARMA FRONTLINE

POWERED BY ODIN AI
2BM SOFTWARE.

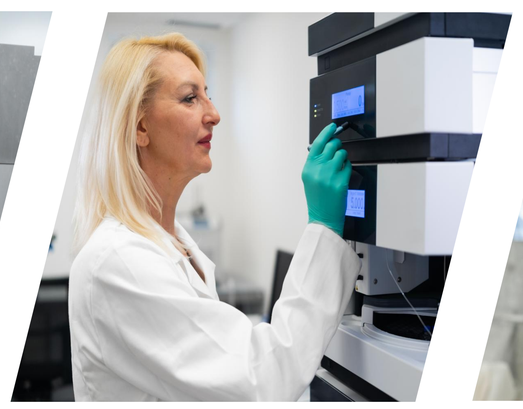
SAP Platinum Partner

Digitize Your Pharma Frontline: Revolutionize maintenance, production, warehouse and laboratory operations with a single, intelligent app that extends SAP across your GMP-regulated frontline.

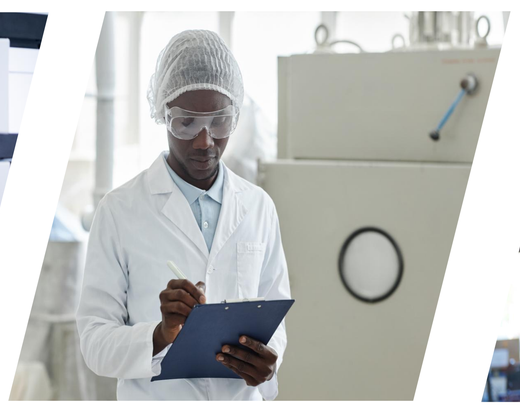
Why It Matters: In pharmaceutical manufacturing, every intervention must be executed correctly, by qualified personnel, following approved procedures — and leave complete, traceable evidence. From the operator who first detects a problem, to the technician who repairs it, to the laboratory specialist who verifies the result, 2BM connects the entire frontline through one configurable WORKFORCE App — accelerating decisions, reducing downtime and keeping every action audit-ready in SAP.

ONE ADAPTIVE, AI-POWERED APP WITH CONFIGURABLE FEATURES FOR EVERY ROLE IN GMP MAINTENANCE, WAREHOUSE & QUALITY

GMP MAINTENANCE TECHNICIAN.



LABORATORY TECHNICIAN.



QUALITY CONTROL TECHNICIAN.

WAREHOUSE OPERATOR.

PRODUCTION OPERATOR.

Available for SAP S4/HANA on-premise, SAP S4/HANA Cloud ERP (Private and Public) and SAP ECC

AI-POWERED INSIGHTS

- Contextual access to manuals, SOPs and work history on demand.
- Turns live SAP data into proactive guidance instead of manual lookups.
- **Smarter decisions, less downtime.**

MULTI-PERSONA EXPERIENCE

- One app, personalized for every role.
- Configurable toolsets for operators, technicians, warehouse, laboratory and quality.
- **One workforce, one platform.**

OFFLINE & MOBILE READY

- Works offline in cleanrooms, laboratories and restricted areas.
- Mobile first design that empowers your workforce anywhere, anytime.
- **Productivity that follows your people.**

SAP CERTIFIED & USER FRIENDLY

- 100% SAP certified; compatible with SAP PM, IM, WM and EWM.
- Recognized UX that reads and talks in 50+ languages.
- **Enterprise power, human simplicity.**

Let's meet at Pharma Maintenance Reloaded, Berlin (1–2 Oct 2026), to see one WORKFORCE App connect your GMP frontline end to end.

Let us demonstrate configurable toolsets for operators, technicians, warehouse, laboratory and quality staff, all offline-ready and powered by AI to extend SAP.

TURN MAINTENANCE COMPLEXITY INTO MOBILE SIMPLICITY

Empower your GMP maintenance workforce with a mobile-first solution that puts the full power of SAP into the hands of technicians, planners and warehouse staff. It simplifies execution, improves data quality and captures audit-ready evidence — online or offline.

- ONBOARD IN MINUTES
- ELIMINATE PAPER & POSTING DELAYS
- RETAIN KNOWLEDGE IN-HOUSE
- IMPROVE MASTER DATA AT THE SOURCE
- TAKE CONTROL OF SPARE PARTS AND SAFETY
- ACCESS UP-TO-DATE TECHNICAL DOCUMENTATION
- STAY OPERATIONAL ONLINE & OFFLINE

Available for SAP S4/HANA on-premise, SAP S4/HANA Cloud ERP (Private and Public) and SAP ECC

ONE MOBILE APP TO DIGITIZE MAINTENANCE EXECUTION, STREAMLINE TASKS, REDUCE ERRORS, AND BOOST PRODUCTIVITY

ONBOARD IN MINUTES

New hires can be fully operational within 30 minutes. The intuitive, modern interface ensures that even SAP newcomers can navigate maintenance tasks with confidence and minimal training.

GO PAPERLESS

Capture confirmations, meter readings, photos, notes, signatures and deviations directly on mobile devices. No manual forms or redundant entry. All instantly stored in SAP with full traceability.

RETAIN KNOWLEDGE IN-HOUSE

Technicians log real-time insights while performing tasks, ensuring critical asset knowledge remains internal and reducing dependence on costly external contractors.

IMPROVE MASTER DATA AT THE SOURCE

Allows users in the field to flag and correct incorrect or outdated master data, directly improving the foundation for planning, analytics, and decision-making.

TAKE CONTROL OF SPARE PARTS

Perform goods issue, receipt, and stock counts from any location. Maintain accurate stock levels and reduce downtime caused by unavailable parts.

ACCESS UP-TO-DATE TECHNICAL DOCUMENTS

Give field teams instant access to asset-specific SOPs, manuals and instructions — always the approved, current version.

REAL-TIME SAP WAREHOUSE EXECUTION - ON ANY DEVICE

WORKFORCE for Warehouse digitizes your GMP inventory and materials processes with a user-friendly mobile solution that brings SAP IM, WM and EWM directly to the floor. Batch and serial capture, spare-parts staging to maintenance orders, no paper lists — just accurate, real-time data flowing straight into SAP.

- **ELIMINATE PAPER & POSTING DELAYS**
- **INCREASE INVENTORY ACCURACY**
- **SPEED UP PICKING & PUTAWAY**
- **REDUCE TRAINING TIME FOR STAFF**
- **ENSURE LIVE INVENTORY VISIBILITY**
- **STAY OPERATIONAL ONLINE & OFFLINE**

Available for SAP S4/HANA on-premise, SAP S4/HANA Cloud ERP (Private and Public) and SAP ECC

ELIMINATE WAREHOUSE BOTTLENECKS, THAT COST TIME AND MONEY.
STREAMLINE EXECUTION. IMPROVE INVENTORY ACCURACY. ACCELERATE FULFILLMENT

ELIMINATE PAPER & POSTING DELAYS

Replace manual lists and delayed scans with instant mobile posting. Goods movements are reflected in SAP in real time - no re-keying, no transaction-heavy screens.

INCREASE INVENTORY ACCURACY

Align SAP with physical stock through fast cycle counts, scanning and batch/serial capture. Reduce discrepancies, prevent stockouts and avoid costly overstock.

SPEED UP PICKING & PUT-AWAY

Optimize warehouse workflows with guided mobile processes — including spare-parts staging and goods issue to maintenance orders — that reduce errors and shorten fulfilment.

REDUCE TRAINING TIME FOR NEW & SEASONAL STAFF

Modern, intuitive screens designed for quick task completion—no deep SAP knowledge required. Get new employees productive in days.

ENSURE LIVE INVENTORY VISIBILITY

Keep SAP IM/WM/EWM continuously in sync with floor activity, enabling better planning, reliable order commitments, and proactive supply chain decisions.

STAY OPERATIONAL – ONLINE & OFFLINE

Maintain productivity even in low-connectivity areas. Offline functionality ensures uninterrupted workflows with automatic synchronization.

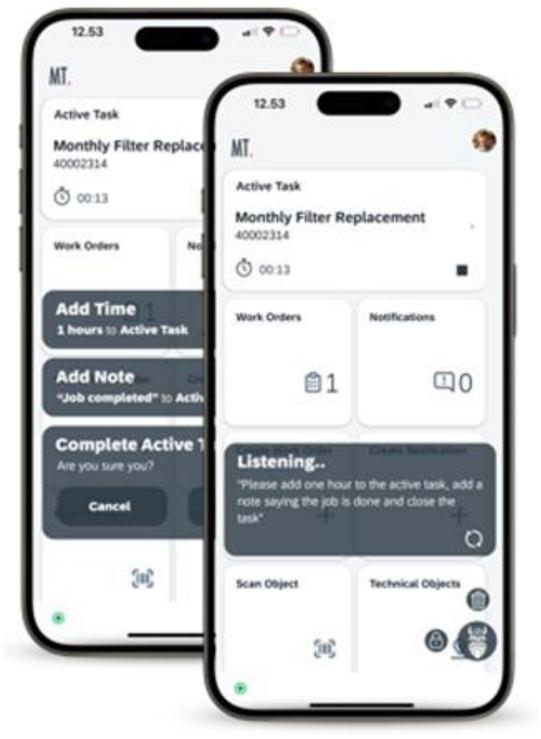
MOBILE GMP MAINTENANCE ASSISTANT

AI that works where pharma work happens — on the production line, in the cleanroom, the laboratory and technical areas. Ask Odin stays with your technicians and specialists, delivering guidance, SOPs, answers and automation in real time, in 50+ languages.



- **MOBILE AI MAINTENANCE ASSISTANT**
- **VOICE CONTROL**
- **ACCESS DOCUMENTS**
- **ANALYZE MAINTENANCE DATA**

Powered By

OpenAI Pinecone

Available for SAP S4/HANA on-premise, SAP S4/HANA Cloud ERP (Private and Public) and SAP ECC

ONE INTEGRATED, AI-ENABLED ASSISTANT WITH REAL-TIME INTELLIGENCE FOR EVERY TASK IN GMP MAINTENANCE, CALIBRATION AND TECHNICAL SUPPORT

VOICE CONTROL

- Voice-activated and hands-free.
- Technicians can report issues, access knowledge, or request support - without breaking focus. Just speak and move on.
- **Improved safety, speed, and focus on critical tasks**

ACCESS DOCUMENTS

- Instant information access.
- SOPs, technical manuals, equipment history and work orders — always one command away, always the approved version.
- **Minimized downtime, maximized accuracy.**

REAL-TIME MAINTENANCE INTELLIGENCE

- Real-time AI support.
- The assistant processes live maintenance data on the spot, offering recommendations, highlighting risks, and supporting decisions at the edge.
- **Faster decisions, better outcomes, fewer delays.**

CONTEXT-AWARE ASSISTANCE

- Guidance aligned with the task at hand. Supports users directly within their active workflow.
- Role- and asset-specific recommendations. Uses live SAP data to deliver precise, contextual answers based on equipment, history, and operational priorities.
- **The right answer. In the right moment.**
